Douglas Keeps Production Moving with Automatic Film Splicer

ALEXANDRIA, MN. (November 24, 2015) – The new ergonomically designed Douglas automatic film splicer delivers precise print registration and heat splicing, reducing critical machine downtime. The easy-access side film stand enables operators to conveniently stage clear or printed film while machine is running. Once staged, no operator attention is needed for splicing. The auto film splicer option is a great addition to your new Contour Shrink Wrap System. Receive maximum results through increased uptime.

About Douglas Machine Inc.

Founded in 1964, Douglas Machine Inc. is a global leader in automated secondary packaging solutions for paperboard, corrugated and shrink film. The company specializes in the design and manufacture of cartoners, sleeves, case/tray packers and shrink-wrap systems. Based in Alexandria, MN, Douglas is an employee-owned company that has installed more than 7,000 machines in 30 countries. For more information, visit www.douglas-machine.com.
